Journal of Computer-Based Instruction
Autumn 1988, Vol. 15, No. 4, 151-155.

INDEX TO VOLUME 15

AUTHOR INDEX

Key to reading author index —
Author; **issue number**: page number.

Acosta, L.J.; **3**: 83.
Alessi, S.M.; **118**, **2**: 40.
Allen, B.S.; **4**: 123.
Allred, K.F.; **1**: 23.
Anderson, B.D.; **3**: 83.
Avner, A.; **1**: 34.

Baek, Y.K.; **4**: 131.
Baer, V.E.H.; **4**: 144.
Baker, H.G.; **1**: 29.
Baldwin, L.E.; **1**: 7.
Berry, V.M.; **1**: 29.
Borton, W.M.; **3**: 95.
Bourg, W.J.; **1**: 7.

Carr, V.H.; **1**: 23.
Carter, C.D.; **4**: 123.
Cohen, R.; **4**: 112.

Diamond, E.E.; **1**: 20.
Dosmann, M.; **2**: 72.
Duin, A.H.; **2**: 48.

ERIC Clearinghouse on Information Resources; **1**: 37, **3**: 109.

Gillingham, M.G.; **1**: 1.
Grabe, M.; **2**: 72.
Gray, S.H.; **2**: 57.

Halcomb, C.G.; **3**: 99.
Hawkins, R.; **2**: 78.

Jay, J.; **1**: 34.

Kazan, J.B.; **1**: 29.
Kearsley, G.; **2**: 61.
Kern, G.M.; **3**: 104.
Klein, J.D.; **4**: 136.
Knight, H.V.; **3**: 83.

Layne, B.H.; **4**: 131.
Leeder, J.A.; **1**: 14.
Livingston, K.; **4**: 149.
Locatis, C.N.; **1**: 23.
Lovill, J.; **1**: 33.

Matta, K.F.; **3**: 104.
Muehlenhard, C.L.; **1**: 7.

Owston, R.D.; **3**: 88.

Piper, A.M.; **1**: 7.

Rogers, E.P.; **2**: 78.

Saha, S.; **1**: 35.
Salisbury, D.F.; **4**: 136.
Sawyer, T.A.; **3**: 80.
Slovacek, C.P.; **3**: 99.
Stokes, M.T.; **3**: 99.
Surber, J.R.; **1**: 14.

Vos, H.J.; **2**: 65.

Wideman, H.H.; **3**: 88.

Yueh, J.; **1**: 18.

TITLE INDEX

Application Report: The Potential of Adventure Games for the Development of Reading and Study Skills. Grabe, M., Dosmann, M., **2**: 72.

Book Review. *Artificial Intelligence and Tutoring Systems: Computational and Cognitive Approaches to the Communication of Knowledge* by E. Wenger. Hawkins, R., **2**: 78.

Book Review. *Computer-Based Training Starter Kit* by J. Buck and L. Gillespie. Avner, A., **1**: 34.

Book Review. *Computers, Curriculum, and Whole Class Instruction — Issues and Ideas* by B. Collis. Rogers, E.P., **2**: 79.

Book Review. *Making CBT Happen* by G. Gery. Lovill, J., **1**: 33.

Book Review. *Teaching and Learning with Computers: A Guide for College Faculty and Administrators* by B. Heermann. Livingston, K., **4**: 149.

Career Plans Check-Up: Automated Assessment of Career Maturity. Baker, H.G., Berry, V.M., Kazan, J.B., Diamond, E.E., **1**: 29.

Color, Graphics, and Animation in a Computer-Assisted Learning tutorial Lesson. Baek, Y.K., Layne, B.H., **4**: 131.

A Comparison of a Microcomputer Progressive State Drill and Flashcards for Learning Paired Associates. Salisbury, D.F., Klein, J.D., **4**: 136.

A Comparison of Textbook and Microcomputer Instruction in Preparation for the ACT. Knight, H.V., Acosta, L.J., Anderson, B.D., **3**: 83.

Computer-Assisted Instructional Displays: Effects on Students' Computing Behaviors, Prewriting, and Attitudes. Duin, A.H., **2**: 48.

Computers as Composition Tools: A Case Study of Student Attitudes. Baer, V.E.H., **4**: 144.

Delaying User Responses to Computer-Mediated Test Items Enhances Test Performance. Stokes, M.T., Halcomb, C.G., Slovacek, C.P., **3**: 99.

The Effect of Graphic Feedback on Student Motivation. Surber, J.R., Leeder, J.A., **1**: 14.

The Effect of Reward Structure and Group Ability Composition on Cooperative Computer-Assisted Instruction. Yueh, J., Alessi, S.M., **1**: 18.

The Effects of Computer Managed Mastery Learning on Mathematics Test Scores in the Elementary School. Borton, W.M., **3**: 95.

The Effects of Computerized and Conventional Study Guides on Achievement in College Students. Sawyer, T.A., **3**: 80.

ERIC Research Abstracts. ERIC Clearinghouse on Information Resources, **1**: 37, **3**: 109.

Expert Systems and Interactive Video Tutorials: Separating Strategies from Subject Matter. Allen, B.S., Carter, C.D., **4**: 123.

Fidelity in the Design of Instructional Simulations. Alessi, S.M., **2**: 40.

Formative Evaluation of Pre-Logo Programming Environments: A Collaborative Effort of Researchers, Teachers and Children. Cohen, R., **4**: 112.

Helping Women "Break the Ice": A Computer Program To Help Shy Women Start and Maintain Conversations with Men. Muehlenhard, C.L., Baldwin, L.E., Bourg, W.J., Piper, A.M., **1**: 7.

The Influence of Personality on Self-Paced Instruction. Kern, G.M., Matta, K.F., **3**: 104.

Sequence Control Menus and CAI: A Follow-Up Study. Gray, S.H., **2**: 57.

Software Review. *The CBT Analyst* by Park Row Software. Jay, J., **1**: 34.

Software Review. *Enable 1.1 Educational Package* by The Software Group. Saha, S., **1**: 35.

Student Development of an Expert System: A Case Study. Wideman, H.H., Owston, R.D., **3**: 88.

Text in Computer-Based Instruction: What the Research Says. Gillingham, M.G., **1**: 1.

The Use of Decision Theory in the Minnesota Adaptive Instructional System. Vos, H.J., **2**: 61.

Using a Lesson-Element Keystroke Oriented Approach for Estimating Authoring Tool Efficiency. Locatis, C.N., Carr, V.H., Allred, K.F., **1**: 23.

Validation of an Expert System: The CBT Analyst. Kearsley, G., **2**: 57.

SUBJECT INDEX

a

ACCESS — A Computer Composing Educational Software System; **2**: 49.
ACT preparation; **3**: 83.
ACT theory of cognition; **2**: 78.
Adapting tutorial content to individual differences; **4**: 127.
Adaptive instruction; **2**: 65.
Adventure games; **2**: 72.
Algebra; **1**: 18.
The Algebra Challenge; **1**: 20.
Amount of text; **1**: 1.
Animation, effectiveness in a CAL tutorial lesson; **4**: 131.
Apple SuperPILOT; **1**: 9.
Apple II microcomputers; **1**: 19.
Apple II+ microcomputer; **1**: 15.
Apple IIc microcomputer; **1**: 9.
Apple IIe microcomputer; **1**: 30.
Applying expert systems technology to the design of tutoring systems; **4**: 124.
Art; **3**: 109.
Artificial intelligence and tutoring systems; **2**: 78.
Authoring languages; **1**: 37.
Authoring software efficiency; **1**: 23.
Authoring tool efficiency; **1**: 23.
Automated assessment of career maturity; **1**: 29.

b

Bayesian decision theory; **2**: 65.
Benchmarking; **1**: 23.
Beta value or operating level; **2**: 67.
Bloom's feedback/corrective-enrichment loop model; **3**: 95.
BUGGY project; **2**: 78.

c

C-Basic language; **1**: 30.
Career Maturity Assessment (CMA); **1**: 30.
Career or vocational maturity; **1**: 29.
Career Plans Check-Up (CPC); **1**: 31.
Carroll's Mastery Learning Theory; **3**: 95.
The CBT Analyst; **1**: 34; **2**:61.
Challenges; **4**: 117.
Cognitive and metacognitive deficiencies; **3**: 92.
Cognitive conflicts experienced by young children in using software programs; **3**: 110.
Color, effectiveness in a CAL tutorial lesson; **4**: 131.
Color of text; **1**: 2.
Comparison of computer training and manual training; **1**: 12.
Complexity and fidelity; **2**: 41.
Complexity of authoring even simple instruction; **1**: 26.
Componential theory of text comprehension; **1**: 3.
Components of a successful mastery learning program; **3**: 95.
Components of heterosocial ability; **1**: 8, 12.
Comprehension information; **1**: 3.
Comprehension monitoring; **1**: 3.
Computational and cognitive approaches to the communication of knowledge; **2**: 78.

Computer and non-computer structured ACT preparation courses; **3**: 83.
Computer-assisted instruction (CAI); **1**: 18, 37.
Computer-assisted instructional displays; **2**: 48.
Computer-assisted learning (CAL) tutorial lesson; **4**: 131.
Computer-based drill and practice strategies; **4**: 136.
Computer-based expert systems; **3**: 88.
Computer-based training (CBT); **1**: 33, 34; **2**: 61.
starter kit; **1**: 34.
Computer-managed mastery learning, mathematics; **3**: 95.
Computer program to help shy women initiate and maintain conversations with men; **1**: 8.
Computer representation of fabric pattern weaves; **1**: 38.
Computer simulations; **2**: 40.
Computerized and conventional study guides; **3**: 80.
Computerized training; **1**: 9.
Computerized tutorial program; **3**: 83.
Computers as composition tools; **4**: 144.
Computers, curriculum, and whole class instruction; **2**: 79.
Concept-learning; **2**: 65.
Conceptual, linguistic, visual, and movement guidelines; **2**: 50.
Conflict caused by software constraints; **3**: 110.
Considerate text; **1**: 3.
Conventional computer-based tutorials; **4**: 123.
Converting non-CBT materials into CBT courses; **3**: 110.
Creating an environment for computer-enrichment instruction; **4**: 149.

d

Decision theory; **2**: 65.
Delaying user responses to computer-mediated test items; **3**: 99.
Design of the Microworlds; **4**: 113.
Determination of the loss ratio; **2**: 67.
Developing spatial skills; **1**: 37.
Development of knowledge bases by seventh-grade students; **3**: 88.
Development of reading and study skills; **2**: 72.
Development of thinking and problem-solving skills in students; **3**: 88.
Diagnostic engines and tutorial plans; **4**: 126.
Difficulties with parameter mapping; **3**: 91.
Digital logic; **1**: 38.
Distributive justice; **1**: 18.
Document design research; **2**: 48.
Dribble file utility; **4**: 117.

e

Effective use of computers in whole-class settings; **2**: 79.
Effectiveness of a computer-based drill strategy; **4**: 136.
Effects of practice and orienting activities on learning from interactive video; **3**: 109.
Effects of well-designed CAI vs. poorly-designed CAI on computing behaviors; **2**: 48.
Electronic information technologies for non-school learning; **3**: 109.
Electronic text display; **3**: 110.
Enable 1.1 educational package; **1**: 35.
Enriching instruction with computers; **4**: 149.
Estimating authoring tool efficiency; **1**: 23.
Exam performance; **3**: 80.
ExperLOGO; **1**: 37.
Expert system(s); **2**: 61; **3**: 88; **4**: 123.
Expert system shells; **3**: 88.
Expository text; **1**: 1.
External content displays; **4**: 128.
External validity; **2**: 62.

f

Feedback; **1**: 14.
Fidelity in design of instructional simulations; **2**: 40.
Fidelity in simulation research; **2**: 40.
Flashcards; **4**: 136.
Flip sequence control; **2**: 57.
Foreground-background color combinations for text; **1**: 2.
Formative evaluation; **4**: 112.
Framework of Bayesian decision theory; **2**: 66.

g

General Linear Model (GLM); **1**: 20.
Graphic feedback; **1**: 14.
Graphics; **2**: 49.
-based programming environments; **4**: 112.
effectiveness in a CAL tutorial lesson; **4**: 131.
Group ability composition; **1**: 19.
Group rewards; **1**: 18.
GUIDON; **4**: 126.

h

Higher Order Thinking Skills Project; **1**: 38.
Home Information Technology Study (HITS); **1**: 37; **3**: 109.
How to best design documents; **2**: 48.

i

IBM Expert System Environment; **3**: 89.
IBM microcomputer; **1**: 29, 34, 35.
Important issues surrounding text presentation; **1**: 1.
Improving conversational skills; **1**: 7.
Individual accountability; **1**: 18.
Individual psychological type; **3**: 104.
Individualized study systems (ISS); **2**: 65.
Inference engines; **4**: 125.
Influence of personality on self-paced instruction; **3**: 104.
Informational effects of feedback; **1**: 16.
Instructional control and practice; **3**: 111.
Instructional design considerations; **3**: 110.
Integrating subject matter knowledge with knowledge about tutoring; **4**: 126.
Intelligent CBI-system; **2**: 65.
Intelligent instructional systems; **3**: 109.
Intelligent pedagogical strategies; **2**: 78.
Intelligent Tutoring System (ITS) research; **2**:78.
Interactive video; **3**: 109, 111.
tutorials; **4**: 123.
Internal validity; **2**: 61.

j

Jungian personality typology; **3**: 104.
Junior high school students; **1**: 18.

k

Keyboarding; **1**: 39.
Keystroke-level model; **1**: 23.

l

Learning paired associates; **4**: 136.
Length of text; **1**: 1.
Lesson-element keystroke oriented approach for estimating authoring tool efficiency; **1**: 23.
Lesson elements; **1**: 24.
Linear sequence control; **2**: 57.
LOGO; **2**: 78.
Loss ratio; **2**: 66.

m

Macintosh; **1**: 37.
MACSYMA ADVISOR; **2**: 78.
Magic Room; **4**: 114, 117.
MAIS — The Minnesota Adaptive Instructional System; **2**: 65.
Manual training; **1**: 10.
Mathematics, elementary; **3**: 95.
Mental preparation time decision rules; **1**: 24.
Menu category names; **2**: 57.
Metacognitive or metacomprehension skills; **2**: 73.
Microcomputer progressive state drill; **4**: 136.
Microcomputer service and maintenance system; **1**: 39.
Microworlds; **4**: 113.
Minnesota Adaptive Instructional System (MAIS); **2**: 65.
My Vocational Situation (MVS); **1**: 29.
MYCIN; **2**: 78; **4**: 126.
Myers-Briggs Type Indicator; **3**: 104.

n

New directions for computer-based text; **1**: 4.
Non-school learning in American households; **3**: 109.

o

On-site repair of computers; **1**: 39.
Online cues; **2**: 49.
Online instructional displays; **2**: 48.
Out-of-school learning; **3**: 109.

p

Page turning and window effect; **3**: 110.
Percepts; **4**: 128.
Perkins' theory of design; **2**: 50.
Personality; **3**: 104.
Peter Pan; **4**: 114, 119.
Physical simulations; **2**: 44.
Poorly-designed CAI screen; **2**: 56.
Potential instructional value; **2**: 72.
Pre-Logo Microworlds; **4**: 112.
Pre-Logo programming environments; **4**: 112.
Preparation for the ACT; **3**: 83.
Primary keyboarding curriculum; **1**: 39.
Prior domain knowledge; **1**: 3.
Problems with experts; **1**: 27.
Problems with implementation; **1**: 27.
Problems with lesson elements; **1**: 27.
Procedural simulations; **2**: 44.
Process simulations; **2**: 44.
Progressive State Drill strategy (PSD); **4**: 136.
Prototype adventure game; **2**: 73.
Psychology; **3**: 99.

r

RACER; **1**: 3.
Ramey's theoretical base for online documentation; **2**: 49.
Rate of text presentation; **1**: 2.
Reader comprehension; **1**: 3.
Reader expectations of text; **1**: 2.
Relationship between word processing and attitudes toward writing; **4**: 145.
Relationship of fidelity and learning; **2**: 41.
Relationships between sequence control and performance; **2**: 57.
Representation of subject matter content; **4**: 127.
Representational capabilities of interactive video systems; **4**: 127.
Research on writing and word processing; **4**: 144.
Reward structure; **1**: 18.
Role-play conversations; **1**: 9.
Role that time plays in user performance when using a computer; **3**: 99.
Rule-based representations of knowledge; 4: 125.

s

San Diego Basic Skills in Mathematics Program (BSMP); **3**: 96.
SCHOLAR project; **2**: 78.
Science; **3**: 88.
Self-paced instruction; **3**: 104.
Separating instructional strategies from subject matter knowledge; **4**: 124.
Sequence control menus; **2**: 57.
Sequential analysis; **4**: 139.
Sequential mastery testing; **2**: 66.
Sessions Project, computer managed mastery learning format; **3**: 95, 96.
SHI-F and dating frequency; **1**: 10.
Simulated laboratory; **1**: 38.
Simulation research; **2**: 40.
Situational simulations; **2**: 44.
Slide Show; **4**: 115.
Social skills training; **1**: 7.
Sociology software; **2**: 57.
SOPHIE project; **2**: 78.
Sources of children's problems with turtle manipulation commands; **4**: 114.
SPEED; **1**: 3.

States of the progressive state drill; **4**: 138.
STEAMER project; **2**: 78.
Student development of an expert system; **3**: 88.
Student effectiveness when using self-paced instruction; **3**: 107.
Student motivation; **1**: 14.
Student paced, continuous progress, mastery-learning format; **3**: 95.
Student sequence control menus; **2**: 57.
Students' attitudes toward writing; **4**: 144.
Study guides; **3**: 80.
Survey of Heterosexual Interactions for Females (SHI-F); **1**: 8.
System response time; **3**: 99.

t

Taxonomy for fidelity analysis; **2**: 43.
Taxonomy of simulation fidelity considerations; **2**: 43.
Teaching and learning with computers; **4**: 149.
Teaching procedural skills; **3**: 109.
Teams-Games-Tournaments; **1**: 20.
Test performance; **3**: 99.
Text based adventure games; **2**: 72.
Text comprehension and CBI; **1**: 2.
Text in computer-based instruction; **1**: 1.
Text resources; **1**: 4.
Text structure; **1**: 2.
Textbase; **1**: 2.
Textbook and microcomputer instruction in preparation for the ACT; **3**: 83.
Thinking skills; **1**: 38.
Threshold loss function; **2**: 66.
Transfer of learning; **2**: 40.
Turtle Factory; **4**: 114, 118.
Turtle graphics; **4**: 113.
Turtle the Count; **4**: 114, 117.
Tutoring, knowledge required for; **4**: 125.
Tutoring systems; **2**:78.
Types of planning and problem-solving deficiencies; **3**: 90.

u

Use of adventure games to develop text processing skill; **2**: 72.
Use of computers for management of elementary mathematics instruction; **3**: 95.
Use of computers in home study; **1**: 37.
User response time; **3**: 99, 100.
Using computers in higher education; **4**: 149.

v

Validation of an expert system; **2**: 61.
Variations in reading rate; **1**: 3.

w

Well-designed CAI screen; **2**: 55.
WEST, a children's math game; **2**: 78.
When to increase fidelity; **2**: 42.
